The data shown in this table were extracted from the U.S. Sentencing Commission’s 2010 Monitoring Dataset by Paul J. Hofer, Policy Analyst, Sentencing Resource Counsel Project, Federal Public and Community Defenders, and former Special Projects Director, U.S. Sentencing Commission. For a description of the Monitoring Datasets, see U.S. Sent’g Comm’n, *Fifteen Years of Guideline Sentencing: An Assessment of How Well the Federal Criminal Justice System is Achieving the Goals of Sentencing Reform* app. D at 1 (2004), and U.S. Sentencing Comm’n, *2010/2011 Guide to Publications and Resources 26-28* (2010). Although this particular analysis is not published by the Commission, the data underlying the tables are the same as the data used in the Commission’s annual Sourcebook of Federal Sentencing Statistics. The data are publicly available at the Commission's website: http://www.ussc.gov/Research_and_Statistics/Datafiles/index.cfm. Using standard statistical software, such as SAS or SPSS, the Monitoring Dataset can be used to generate a wide variety of tables and graphs beyond those published by the Commission.
