David J. Bailey, Clerk of Court

1.)

Good Morning, Honorable Judge Andrew Hamens.

I am writing this letter to you regarding the worsening of my condition. The last medications I received for my metastatic breast ^{Cancer} was the first week of March, 2020 and it was stopped because my liver enzymes went extremely high. I had different blood work done to make sure my liver enzymes came down ~~to~~ continue my chemo treatments. The last time I saw my Doctor (Dr. Para Beatriz) was in April and my liver enzymes came down a lot. We are almost heading to July, but I have NOT had any chemo treatments and I am so sick right now! I have complaint to Dr. Para Beatriz my doctor about ^{my} ribs hurting so bad my upper stomach and epi gastric area, my ribs underneath both of my breasts also very painful. Nothing

2.)

has been done. The only thing done was ultrasound of my right arm of the affected breast. The doctor prescribed Omaprezole for heartburn with severe side effects which are affecting my bones, poor appetite, increased coughing all night. Since the lockdown due to Covid 19 my condition has worsened due to poor care here at Carswell. I don't think I will make it here if I continue under such horrible conditions. I have complaint to the ^(Ms. Little) social worker, ^(Smith-Branson) Case Manager about my condition. Ms. Smith-Branson told ^{recently} me I was qualified for Covid 19 2020 Home Confinement. A week later I went to an open house and she ^(Ms. Smith-Branson) told me I ^{had} ~~was~~ NOT done half of my time and that disqualified me. Ms. Smith-Branson openly lied to me because other inmates

3.)

who have NOT done ^{half of their time} are sent ^{to} home confinement.

When I told Ms. Smith - Branson it was NOT true

what she said about Home Confinement qualification

she told me to go to my Judge at the Court and apply for Compassionate release Covid 19.

I applied for Compassionate release Covid 19

here at Carswell on March 30, 2020 and

thirty days went by with out hearing from the Warden. I have not been receiving good care

for my Terminal Cancer and has worsened during this

lockdown. The Food provided is very poor and I eat

only breakfast. I have NOT seen or talk to the

Oncologist since March, 2020 and so no Chemo

treatments provided at this time. I have told my

Attorneys also and letting you know my Current Condition.

I need medical help out of Carswell Please. Thanks.
